. MEMORANDUM FOR THE HEADS OF DEPARTMENTS AND AGENCIES

SUBJECT: Federal Building Security Precautions

Reference is made to my memorandum of October 16, 1970, on the above subject.

Current instructions to General Services Administration (GSA) personnel responsible for the protection and security of Federal buildings are as follows:

1. Continue to keep entrances restricted until further notice.
2. Continue to search all suspicious packages.
3. Where there exists an effective employee identification system (identification cards with photo of employee as an example), dispense with examining packages carried by employees which are not of a suspicious nature.

In keeping with the foregoing, I have issued GSA Bulletin FPMR D-72 this date concerning personnel identification and advising that GSA security personnel will honor identification cards issued by any Federal agency or Optional Form 55, U.S. Government Identification. Initial stocks of Optional Form 55 may be obtained from our local GSA building managers.

Your attention to the foregoing and cooperation will be appreciated.
